Chapter 1

page 10, top of page, the line:

"This command produces a plot of x versus y (see figure 1.1a)."

should read:

"This command produces a plot of **y versus x** (see figure 1.1a)."
(Thank you to Mr. Mohammad Keshtkar)

Chapter 2

page 39, section 2.2.6: the value of `stat` should be 0.2884.
(Thank you to Dr. David McGonigle)

page 41, section 2.2.6: In **A:**, the value of `stat` should be 0.2884.
(Thank you to Dr. David McGonigle)

page 41, Figure 2.10: This figure should look more like this:

Chapter 10

page 317, Question box, the question should read:

"**Q:** Since the duration of the moving window is 500 ms, if we want to maintain a frequency resolution of **8 Hz**, what is the time-bandwidth product and number of tapers?"

(Thank you to Mr. Dustin Hayden)
